ROUNDING OF FIGURES

Many of the figures appearing in the tables have been rounded (to thousands or, in some cases millions), without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that figures do not always add to the totals shown in the tables.

SPECIAL NOTE

The *Statistical Register of Western Australia* ceased publication under that title with statistics for the year 1967-68.

For 1968-69 and subsequent years, the various parts of the Statistical Register will be published under new titles, as set out below, under the general heading of *Statistics of Western Australia*. An exception is *Part VI—Factory Statistics* which will be replaced by one of a series of Integrated Economic Census bulletins issued by the Commonwealth Statistician, Canberra.

Old title under Statistical Register of Western Australia	New title under Statistics of Western Australia
Part I—Population and Vital Statistics 	Demography
Parts II and III—Finance Statistics 	Finance
Part IV—Trade, Transport and Communication 	Trade Transport and Communication
Part V—Land Settlement, Agriculture, Livestock and Meteorological Statistics	Rural Industries Non-Rural Primary Industries

No. 3—Consolidated Revenue Fund : Revenue and Expenditure classified according to Function

NOTE. This table is designed to show (in respect of the Consolidated Revenue Fund only) the gross and net cost of each function of Government irrespective of the Department or Departments administering these functions. In cases where an activity is such that it involves more than one function, each of its components has been included in that function which is considered to be the most appropriate. For example, in classifying expenditure attributable to child welfare, the custody and care of delinquent children is included under *Law, order and public safety* and the education of children in institutions under *Education*, only the balance being assigned to the item *Welfare*.

Certain functions are performed by semi-government authorities and do not affect the Revenue Fund with the exception of Public Debt operations and various subsidies and recoups, e.g. electricity, banking, insurance, roads. In other cases the Revenue Fund recoups certain losses or receives surplus profits from public enterprises. Public Debt charges are shown as a separate function.

LOAN TRANSACTIONS AND PUBLIC DEBT

No. 5—General Loan Fund : Gross Expenditure classified according to Function

NOTE. This table is designed to show gross expenditure from the General Loan Fund classified according to governmental function. Where an activity is such that it involves more than one function, each of its components has been included in that function which is considered to be the most appropriate. For example, in classifying expenditure attributable to the development of agriculture, the expenditure on Muresk Agricultural College is included under Education and expenditure on Ord River land regeneration has been included under 'Soil conservation', only the more general items being assigned to 'Agriculture, pastoral and dairying'.

No. 14—Receipts and Expenditure of State Road Funds (Combined Funds)

NOTE. Road funds are dealt with in a number of accounts comprising the Central Road Trust Fund, Commonwealth Aid Roads Acts Accounts, Main Roads Trust Account, Main Roads—New Building Account, Mitchell Freeway Account, Railway Crossing Protection Fund Account (which replaced The Metropolitan Area Railway Crossing Fund Account as from 1 January 1967), Strategic Roads and Roads of Access to Commonwealth Property Account, and Beef Cattle Roads Account, all controlled by the Commissioner of Main Roads; the Metropolitan Traffic Trust Account administered by the Commissioner of Police; and the Roads Maintenance Trust Fund administered by the Commissioner of Transport.

Money raised by local government authorities on their own behalf, and their expenditure on roads or facilities for roads, are not included in the table below.

Amounts for certain items of receipts shown in the table differ from similar Trust Fund totals in the preceding table (see page 16) because the figures are compiled on a different accounting basis. For example, in the following table, 'net' transactions are shown whereas in the preceding table the flow of funds is recorded on a 'gross' basis.

No. 17—Summary of Commonwealth Government Net Taxation Collections in Western Australia

NOTE. The figures in this table represent the amounts collected in Western Australia but do not necessarily indicate the amount contributed by the people of the State, as moneys may be collected in one State in respect of goods consumed in, or assessments made on account of, other States. Further, administrative arrangements for the collection of certain taxes are such that a large proportion of the revenue (or, as in the case of Wheat Tax, the whole of the revenue) is brought to account in a State other than Western Australia.

TAXATION

No. 18—State Taxation : Net Collections

NOTE. Collections are grouped according to the nature of the tax rather than the method of collection. The stamp duties on betting tickets and revenue from bookmakers' licences and totalisator licences are included under the heading 'Racing' and not under 'Stamp duties' or 'Licences'.

The figures shown comprise payments to Consolidated Revenue and trust or special accounts. They include earnings from some types of licences which are treated as departmental revenue, and not as taxation, in the Public Accounts. For purposes of comparison with other States, vehicle registration fees, passenger and carriers' licence fees and other motor vehicle fees collected by local government authorities outside the Metropolitan Traffic Area are also included. At the foot of the table there appears a reconciliation between the aggregate net collections for the year 1968-69 and the total of the item 'Taxation' in Table 1.

COMMONWEALTH INCOME TAX

NOTE. Tables 21 to 24 inclusive have been compiled from information supplied in returns made to the Commissioner of Taxation. The information relates to assessments issued during a period of fifteen months, in the case of individuals, and eighteen months in the case of companies, after the close of the year of income.

'Actual income' may be defined briefly as 'gross income' (including exempt income) less expenses incurred in gaining that income. ('Exempt income' includes war and service pensions, social services benefits, income from gold mining and certain income derived from overseas if the income is taxed in the country in which it is derived.)

'Taxable income' is equal to actual income less exempt income and allowable deductions.

FIRE, MARINE AND GENERAL INSURANCE

NOTE. The tables in this section have been compiled from annual returns submitted by insurers transacting business in Western Australia.

The returns do not relate to a uniform accounting period, the actual period varying according to the financial year adopted by individual insurers.

The statistics shown conform substantially to the following definitions and should be interpreted accordingly.

- (i) Premiums represent the full amount receivable in respect of policies issued or renewed during the year, less returns, rebates and bonuses paid or credited to policy holders during the year. They are not adjusted to provide for premiums unearned at the end of the year and consequently the amounts differ from 'earned premium income' appropriate to the year. When figures are increasing, as in recent years, premiums receivable (as shown in the tables) are greater than 'earned premium income' appropriate to the year. The converse applies when figures are declining.
- (ii) Claims include provision for outstanding claims and represent claims or losses incurred during the year. Salvage and other amounts recoverable have been deducted.
- (iii) Contributions to Fire Brigades, Commission, Agents' Charges and Expenses of Management represent mainly charges paid during the year.
- (iv) Taxation represents mainly payments made during the year and includes Income Tax, Pay-roll Tax, Licence Fees, Stamp Duty (where paid by the company), etc.

The tables contain selected items of statistics and the information shown is not suitable for the construction of a 'Profit and Loss' statement or 'Revenue Account'.
